et des Organisations internationales à Vienne*

Lettre mensuelle d'informations sur les échéances de l'Agence Internationale de l'Energie Atomique (AIEA)

Editorial :

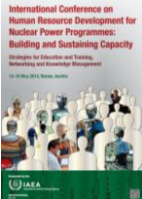

Le Conseil des Gouverneurs de mars s'est achevé que déjà débute à Vienne la 6^{ème} réunion de revue des Etats Parties à la Convention sur la sûreté nucléaire.

En outre, quelques ateliers et réunions techniques seront organisés à Vienne par le Secrétariat de l'AIEA, les prochaines semaines :

- GNSSN Fourth Steering Committee Meeting of the Global Nuclear Safety and Security Network (2-4 avril, salle C4),
- 35th Meeting of the Commission on Safety Standards (7-11 avril, salle M3),
- Technical Meeting on the Safety of High Temperature Gas Cooled Reactors in the Light of the Fukushima Daiichi Accident (8-11 avril, salle MOE026),
- Technical Meeting on Priorities in Modelling and Simulation for Fast Neutron Systems (14-16 avril, salle M2),
- Technical Meeting on Siting for Geological Disposal Facilities (15-17 avril, salle Press Room),
- Annual Meeting of the Technical Working Group on Fuel Performance and Technology (24-25 avril, salle M4),
- Technical Meeting of the International Fusion Research Council's Subcommittee on Atomic and Molecular Data for Fusion (28-29 avril, salle MOE079),

Rappels sur la lettre mensuelle d'informations : Cette lettre comporte des tableaux compilant (i) des conférences internationales et des réunions techniques organisées par l'AIEA et potentiellement d'intérêt pour les industriels français (autres que celles déjà identifiées lors des réunions de coordination menées par le Service du Gouverneur : CEA-DRI), (ii) les besoins de l'AIEA en experts mis gratuitement à sa disposition par les Etats membres (salaires et charges pris en charge par l'employeur), (iii) des appels d'offres commerciaux lancés par l'AIEA dans le cadre de l'United Nations Global Marketplace et (iv) des postes vacants stratégiques.

Conférences internationales de l'AIEA

Conférence	Objectif	Date	Lieu	Responsable AIEA	Date limite d'enregistrement
International Conference on Human Resource Development for Nuclear Power Programmes: Building and Sustaining Capacity 	Organisée dans le cadre du Plan d'Action de l'AIEA sur la Sûreté Nucléaire, post accident de Fukushima, cette conférence se concentrera sur les défis de l'établissement, le maintien et le renforcement des capacités et des ressources humaines (formations) dans le secteur nucléaire : <ul style="list-style-type: none"> – Réviser les développements en matière de formations nucléaires depuis 2010 ; – Rôle et importance du renforcement des ressources humaines dans les cultures nationales de sûreté nucléaire ; – Forum d'échanges sur les pratiques nationales en matière de formations nucléaires, pour en tirer les meilleures pratiques organisationnelles. 	12-16 mai 2014	VIC, Vienne	M. Brian Molloy (Division of Nuclear Power) et M. Shahid Mallick (Department of Nuclear Safety) : HR-Conf-2014.Contact-Point@iaea.org	Enregistrement en ligne (voir lien hypertexte)
International Symposium on Understanding Moderate malnutrition in Children for Effective Interventions 	L'objectif de ce symposium qui illustrera les développements dans la lutte contre la malnutrition infantile sera de : <ul style="list-style-type: none"> – Partager l'expérience de mise en œuvre de programmes pour prévenir et traiter la malnutrition infantile, surtout dans les 1000 premiers jours ; – Soutenir les politiques de gestion de la malnutrition infantile ; – Identifier les connaissances et les lacunes en matière de recherche dans ce domaine ; – Faire des recommandations pour améliorer la gestion des programmes de lutte contre la malnutrition infantile. 	26-29 mai 2014	VIC, Vienne	Mme Najat Mokhtar et Mme Cornelia Loechl (Department of Nuclear Science and Applications) : N.Mokhtar@iaea.org et C.Loechl@iaea.org	Enregistrement en ligne (voir lien hypertexte)
2014 Symposium on International Safeguards: Linking Strategy, Implementation and People 	The International Atomic Energy Agency is holding its Symposium on International Safeguards, an event which usually attracts over 600 participants from all Member States and takes place every four years, in Vienna. This event is a unique occasion to highlight the latest developments in technology and methodology for IAEA safeguards applications. We would like to give your company an opportunity to promote awareness about your products and services within the IAEA scientist network and international stakeholders by registering as an exhibitor. If interested in participating, please contact us on Safeguards2014@iaea.org as soon as possible as space is limited and will be awarded on a first-come, first-served basis.	20-24 octobre 2014	VIC, Vienne	Mme Stéphanie POIRIER Assistant Scientific Secretary & Exhibition coordinator (Department of Safeguards) : s.poirier@iaea.org	Enregistrement en ligne (voir lien hypertexte)

 : Pour les inscriptions à ces conférences internationales, consulter les liens dédiés (dans la première colonne). Pour plus d'annonces de conférences, consulter le site de l'AIEA au lien suivant : <http://www-pub.iaea.org/iaeameetings/>.

Besoins prévisionnels d'experts à titre gracieux (Cost Free Experts) à l'AIEA (2013-2015)

Position	Département	Division	Section/groupe	Grade	Durée du contrat	Lieu
Senior Physical and Technical Security Specialist	Management (MT)	O/DDG-MT		P4	18 mois	VIC
Application Security Engineer	Management (MT)	MTIT	Business Solutions Section (BSS)	P3	1 à 2 ans	VIC
IT Systems Engineer	Management (MT)	MTIT	Infrastructure Services Section (ISS)	P3	1 à 2 ans	VIC
Senior Nuclear Engineer	Nuclear Energy (NE)	NENP	Groupe des Infrastructures intégrées (INIG)	P4 or P5	3 ans	VIC
Nuclear Engineer	Nuclear Energy (NE)	NENP	Projet international INPRO	P4 or P5	3 ans	VIC
Environmental Remediation Specialist	Nuclear Energy (NE)	NEFW	Waste and Technology Section (WTS)			VIC
Energy Analyst	Nuclear Energy (NE)	O/DDG-NE				VIC
Knowledge Management Specialist	Nuclear Energy (NE)	O/DDG-NE	Nuclear Knowledge Management Section (NKM)	P4	1 an (extension possible)	VIC
Senior Safety Officer	Nuclear security and safety (NS)	NSNI	Regulatory Activities Section (RAS)	P5		VIC
Senior Safety Officer	Nuclear security and safety (NS)	NSNI	Safety Assessment Section (SAS)	P5		VIC
Senior Safety Officer	Nuclear security and safety (NS)	NSNI	Research Reactor Safety Section (RRSS)	P5		VIC
Safety Officer	Nuclear security and safety (NS)	NSNI	International Seismic Safety Center (ISSC)	P4		VIC
Radition Safety Specialist	Nuclear security and safety (NS)	NSRW	Radiation Safety and Monitoring Section (RSM)	P4		VIC
Radition Safety Specialist	Nuclear security and safety (NS)	NSRW	Regulatory Infrastructure and Transport Safety Section (RIT)	P4		VIC

Offres de consultances à l'AIEA

Position	Département	Section	Rôle	Durée du contrat	Date limite de candidature	Lieu
Architect/Technical Planner (voir fichier Consultance 2014_407)	Department of Nuclear Sciences and Applications.	Office of the Deputy Director General	<ul style="list-style-type: none"> Support the analysis and respective planning activities in response to the needs and requirements of the eight laboratories, including approaches for increasing functionality, efficiency and effectiveness of space in consideration of safety and quality. Enhance concept level cost estimates supporting planning efforts, including cost comparison studies for alternative assessments and options. Support the planning, coordination and design of project steps (e.g. master planning etc.). Develop concepts and initial plans for transitioning of laboratories in the frame of the options and phases being reviewed and ultimately planned. Preparation of scopes of work, procurement documents and other necessary documentation for assignments to be conducted by external planning consultants. Liaise with the Project Management Group, the Division of General Services, in particular the Facility Management Section, as well as with outside experts involved with planning the project. 	12 mois	31 mars 2014	VIC
IRRS Consultant (voir fichier Consultance 2014_409)	Division of Nuclear Installation Safety	Regulatory Activities Section	<ul style="list-style-type: none"> Identify technical issues to be addressed and covered in extra-budgetary activities, define required level of detail and develop implementation plans Prepare technical report on the implementation of the project; Identify technical issues that need to be considered during implementation of the IRRS process and provide solutions on how they should be addressed; Participate in the conduct of IRRS missions and analyse the results of past missions and prepare report based on the technical information and data analysed; Develop and implement standardized tools and documents to be applied in the IRRS missions and 	2 ans	7 avril 2014	VIC

			<p>methods to evaluate effectiveness and efficiency of the IRRS process;</p> <ul style="list-style-type: none"> • Liaise with counterparts in Member States for the organization of missions and with partner organizations having roles in IRRS related activities; • Based on the gained experience and in cooperation with the stakeholders, develop a revised version of the IRRS Guidelines. 			
Records Management Project (voir fichier Consultance 2014_411)	Department of Management	Division of General Services	<ul style="list-style-type: none"> • Written report proposing a revised file plan as well as retention schedule including road map for their implementation in the pilot Departments; • Implementation of both the file plan and retention schedule in a pilot format in order to demonstrate the tools' appropriateness and usability within the Agency; • Systematic control of paper and electronic records through the records audit and clean-up project with the intended shift to more efficient records storage facilities. 	6 mois	11 avril 2014	VIC
Seismic and Tsunami Safety Expert (voir fichier Consultance 2014_412)	Division of Nuclear Installation Safety	International Seismic Safety Centre	<ul style="list-style-type: none"> • Analyse and identify the technical issues that need to be considered in the documents; • Participate and offer expert technical advice in the meetings of the ISSC-EBP; and • Draft and/or review the detailed guidance (or portions of it) for design/safety assessment for NPPs against earthquake/tsunami hazards in collaboration with the participating members of the ISSC-EBP. 	3 à 12 mois	17 avril 2014	VIC

Postes vacants à l'AIEA

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/028	Clean Laboratory Chemist	The Clean Laboratory Chemist is (1) a team player working with other chemists and laboratory staff in the Environmental Sample Laboratory (ESL) and reporting to the Chemistry Team Leader, and (2) a technical specialist performing complex chemical separations and sample preparation, improving existing procedures, and modifying or devising procedures for new applications.	Department of Safeguards / Office of Safeguards Analytical Services / Environmental Sample Laboratory / ESL Chemistry Team	P3	Fixed term, 3 years	1 ^{er} avril 2014
Vacancy Notice No. 2014/402	Emergency Response Training Officer	The Emergency Response Training Officer is: (1) a trainer, developing and presenting lectures on specific areas covered by the training program and conducting drills and exercises within the IAEA's IES; (2) an analyst and rapporteur on the training requirements based on the feedback from past responses, drills and exercises and from new developments in emergency preparedness and response; and (3) a planner and implementer, developing a training program and setting up and implementing a training schedule in cooperation with liaison officers and IES staff from the relevant divisions within the Secretariat.	Department of Nuclear Safety and Security / Incident and Emergency Centre	P3	Fixed term, 3 years	1 ^{er} avril 2014
Vacancy Notice No. 2014/403	Section Head	The Section Head is: 1) a <i>leader and manager</i> , providing guidance and managerial support to the publishing and printing team, and planning resources with a view to achieving efficient and effective results in accordance with the Divisional objectives; (2) a <i>service provider</i> , ensuring the expeditious and efficient delivery of publishing services to customers throughout the IAEA; (3) <i>Chairman</i> of the Publications Committee to provide expert advice on publishing policies and practices; (4) <i>Secretary</i> of the Publishing Policy Board, advising the Director of the Division of Conference and Document Services on Agency-wide policy issues relevant to publishing.	Department of Management / Division of Conference and Document Services / Publishing Section	P5	Fixed term, 3 years	1 ^{er} avril 2014
Vacancy Notice No. 2014/029	Associate Security Facilitation Officer	The Associate Security Facilitation Officer is: (1) a substantive contributor, providing operational support to enable the safest and most secure conduct of the Agency's programmes and activities; and (2) an technical specialist on matters pertaining to field security, including the provision of risk assessments and country specific geopolitical analysis; (3) a team member working collaboratively on the maintenance and revision of security operating procedures, guidelines, and on the continuous improvement of security and incident related systems and programmes.	Department of Management / Office of the Deputy Director General	P2	Fixed term, 3 years	3 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/038	Technical Lead	The Technical Lead is: (1) a substantive expert contributor managing projects of particular complexity and/or sensitivity; and (2) a Scientific Secretary to international technical meetings related to a specialized field, overseeing preparation and editing of technical reports, manuals proceedings and other technical publications; (3) a manager planning, leading, co-ordinating and supervising the activities of a Sub-Section in accordance with Member States' needs and monitors their implementation; (4) a coordinator of inter-agency collaborative projects with the UN system, reviewing and providing a systematic overview and preparation of technical documentation and papers for discussions.	Department of Nuclear Energy / Division of Nuclear Fuel Cycle and Waste Technology / Nuclear Fuel Cycle and Materials Section	P5	Fixed term, 3 years	3 avril 2014
Vacancy Notice No. 2014/039	Safeguards Analyst	The Safeguards Analyst is: (1) <i>coordinator</i> of one or more of the key quality processes in the Department's management system, advising and training staff in its use; (2) <i>analyst</i> and <i>evaluator</i> of the performance of complex technical processes to determine necessary improvements; (3) <i>facilitator</i> of process improvement groups; and, (4) <i>trainer</i> in quality management principles, tools and techniques.	Department of Safeguards / Division of Concepts and Planning / Process Design Section	P4	Fixed term, 3 years	3 avril 2014
Vacancy Notice No. 2014/027	Senior Statistician	The Senior Statistician is: (1) a specialist, who provides comprehensive advice on the most effective and efficient statistical and probabilistic methodologies; (2) an expert analyst, who supervises statistical and probabilistic studies as well as non-statistical mathematical studies necessary to meet the IAEA's Safeguards objectives, reviews concepts and approaches concerning their logical consistency, and performs and draws conclusions on material balance evaluations, according to the highest standard of quality; (3) a technical adviser to the team leaders, the Section Head and the Divisional Director on probabilistic verification approaches, material balance evaluations as well as analytical methods and measurement techniques used for safeguards verification; and (4) a mentor who provides guidance and training to the team members.	Department of Safeguards / Division of Information Management / Nuclear Fuel Cycle Analysis Section	P5	Fixed term, 3 years	6 avril 2014
Vacancy Notice No. 2013/085	Management Specialist	The Management Specialist is (a) a team member, contributing to ensuring that the IAEA remains a reliable steward of public resources, and (b) a project manager, leading the planning and implementation of management services reviews.	Offices reporting to the Director General / Office of Internal Oversight Services	P4	Fixed term, 3 years	9 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/023	Section Head	The Section Head is: a team leader, ensuring the efficient and effective management of assigned staff, physical and financial resources in line with quality management standards and a results-based approach; a technical leader, leading a multidisciplinary team in the Section focused on ensuring the efficient and effective development and implementation of the sub-programmatic activities, capacity building, technical support, policy advice and information exchange for Member States, as it relates to the sub-programme; and a technical officer, evaluating technical cooperation (TC) projects, and providing technical support to coordinated research projects (CRPs) in the area of soil, water and crop nutrient management.	Department of Nuclear Sciences and Applications / Joint FAO/IAEA Division of Nuclear Techniques in Food and Agriculture / Soil and Water Management and Crop Nutrition Section	P5	Fixed term, 3 years	9 avril 2014
Vacancy Notice No. 2014/033	Engineer	The Engineer is (1) a facilitator within the Office for the collection and dissemination of information related to laboratory technical services, (2) a liaison among internal Divisions and Departments, as well as with external suppliers, for the allocation of appropriate resources, and (3) a coordinator of the various building-related technical services and activities within the laboratories.	Department of Safeguards / Office of Safeguards Analytical Services	P3	Fixed term, 3 years	9 avril 2014
Vacancy Notice No. 2014/036	Safety Officer (Capacity Building)	As a team member of the Programme and Policy Unit, the Safety Officer is: (1) a <i>project manager</i> , developing, implementing and improving the Departmental capacity building programme, defining and facilitating the sharing and creating of common knowledge among staff; (2) an <i>analyst</i> , categorizing and analyzing relevant information and knowledge resources; (3) a <i>quality manager</i> , drafting and implementing procedures for the whole Department to support missions and other high profile activities, ensuring that these processes are sustainable and encouraging continuous improvement; (4) a <i>liaison</i> with other Departments within the IAEA in relation to capacity building and infrastructure development for nuclear safety and security in Member States interested in embarking on a nuclear power programme or expanding their existing programme and providing assistance to Member States in the conduct of self-assessment for capacity building activities.	Department of Nuclear Safety and Security / Safety and Security Coordination Section / Programme and Policy Unit	P3	Fixed term, 3 years	9 avril 2014
Vacancy Notice No. 2014/031	IT Systems Engineer	The IT Systems Engineer is (a) a IT Service Desk team member, (b) a solution provider, troubleshooting and fixing technical and process issues, (c) a project manager (d) and a coach and mentor.	Department of Management / Division of Information Technology / Customer Services Section / Services Delivery Unit	P2	Temporary Assistance, 2 years	10 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/032	IT Systems Engineer	The IT Systems Engineer is (a) a <i>IT Service Desk team member</i> , (b) a <i>solution provider</i> , troubleshooting and fixing technical and process issues, (c) a <i>project manager</i> (d) and a <i>coach and mentor</i>	Department of Management / Division of Information Technology / Customer Services Section / Services Delivery Unit	P2	Fixed term, 3 years	10 avril 2014
Vacancy Notice No. 2014/034	Senior Expert (Organisation and Management Systems)	The Senior Expert (Organisation and Management Systems) is: (1) an expert in all aspects of organisation and management systems for nuclear facilities and activities, including both new nuclear power projects and operating nuclear power plants; (2) a programme planner and implementer, planning, developing and implementing activities aimed at helping Member States improve their nuclear energy programmes; (3) a scientific secretary, planning and leading complex Technical Meetings; (3) a technical and project officer, evaluating and supporting the implementation of complex technical cooperation projects in the area of organisation and management systems within the IAEA's programme on nuclear power planning, implementation and performance; and (4) a partnership builder, establishing, developing and maintaining an international network in organisation and management systems for nuclear power plants.	Department of Nuclear Energy / Division of Nuclear Power / Nuclear Power Engineering Section	P5	Fixed term, 3 years	10 avril 2014
Vacancy Notice No. 2014/037	Technical and Nuclear Fuel Expert	The Technical and Nuclear Fuel Expert is: (1) a substantive specialist, bringing extensive experience of nuclear fuel cycle technology, systems, and materials to the IAEA LEU Bank project; (2) an innovator able to find effective but pragmatic solutions to issues encountered by the Project; (3) a leader able to design and implement complex tasks through the participation of others; (4) an adviser to the Project Manager, Project Executive and other senior managers on significant project-related issues; and (5) a relationship manager ensuring that a cooperative and energetic project environment is maintained.	Director General's Office for Coordination	P5	Temporary Assistance, 2 years	10 avril 2014
Vacancy Notice No. 2014/042	Business Analyst (2 postes)	The Business Analyst is: (1) a <i>specialist</i> , performing business analysis; (2) a <i>point of liaison</i> with users in the Department of Safeguards and project team; (3) an <i>adviser</i> to team leader and other senior managers in the Division on business process, risk, change and system implementation issues.	Department of Safeguards / Office of Information and Communication Systems / Project Section / Business Analysis Team	P3	Fixed term, 3 years	13 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/043	Senior Systems and Infrastructure Architect	The Senior Systems and Infrastructure Architect is: 1) a solution provider, functioning as an expert in providing agile, cost-effective, IT Infrastructure solutions and coordinating service delivery; 2) a specialist adviser, providing advice to management on establishing secure and reliable IT systems and best practices; 3) a project manager, defining, planning and executing efficient infrastructure projects; and 4) a technical specialist, solving problems and troubleshooting network, server, storage and virtualization-related issues.	Department of Safeguards / Office of Information and Communication Systems / Infrastructure Section / Systems Engineering Team	P4	Temporary Assistance, 2 years	14 avril 2014
Vacancy Notice No. 2014/044	Associate Nuclear Engineer	The Associate Nuclear Engineer is: 1) a contributor to managing programmes, and organizing, from the technical viewpoint, and conducting Conferences, Workshops and Technical and Consultancy Meetings; 2) a technical analyst, drafting Technical Documents and Nuclear Energy Series, maintaining currently available software tools in NPTD Section and contributing to development of new tools in the field of non-electric applications of nuclear energy.	Department of Nuclear Energy / Division of Nuclear Power / Nuclear Power Technology Development Section	P2	Fixed term, 3 years	14 avril 2014
Vacancy Notice No. 2014/045	Associate Nuclear Engineer	Under close supervision and guidance of the Team leader the Associate Nuclear Engineer serves as: 1) a technical analyst, providing input to preparation of technical documents for Workshops, Technical & Consultancy meetings and drafting of Nuclear Energy series reports; 2) a team member, contributing to management of the programmes and coordinated research projects.	Department of Nuclear Energy / Division of Nuclear Power / Nuclear Power Technology Development Section	P1	Fixed term, 3 years	14 avril 2014
Vacancy Notice No. 2014/048	Section Head	The Section Head is: (1) a leader and manager, providing guidance and managerial support to the team, and planning human, technical and financial resources with a view to achieving efficient and effective results; (2) an adviser on IT policy and strategic plans; (3) a product manager, steering the development of IAEA-wide information products by coordinating information needs across the IAEA; and (4) a technical leader providing expertise in the information management area.	Department of Management / Division of Information Technology / Programme Management and Policy Section	P5	Fixed term, 3 years	14 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/025	Metadata Librarian	The Metadata Librarian performs the role of (1) a metadata librarian, assigning bibliographic metadata according to relevant international standards and schemas; (2) a subject specialist, assigning appropriate subject headings and descriptors using the Library of Congress Subject Headings (LCSH) and the International Nuclear Information System (INIS) Thesaurus; classifying documents according to the Universal Decimal Classification (UDC); (3) a reviewer, performing quality control to ensure consistency and accuracy of information sources; (4) a research librarian, providing information services to customers through research, analysis of assigned topics and timely preparation and distribution of information products to target audiences; and (5) a team member working collaboratively with other members of the IAEA Library and the Nuclear Information Section on improving efficiency of delivering products and services to customers using the modern information technology.	Department of Nuclear Energy / Nuclear Information Section / IAEA Library Unit	P2	Fixed term, 3 years	15 avril 2014
Vacancy Notice No. 2014/049	Associate Project Officer	The Associate Project Officer is: (1) a scheduler, preparing, reviewing, and maintaining detailed work plans and schedules of project activities, developing and maintaining tools for tracking project resource allocation, monitoring the status of activities, and contributing to the preparation of project reports, consisting of comprehensive summaries of activities performed; (2) a team member supporting the Nuclear Safety Action Team in the designing and delivering effective communication and advocacy strategy for the results of Action Plan projects and the IAEA Fukushima Report; (3) an adviser to the Special Coordinator on improving the efficient and effective production and delivery of public information to target audiences through digital and print channels; (4) a quality assurance officer ensuring the preparation of the IAEA Fukushima Report in accordance with IAEA guidelines and standards; and (5) an officer supporting implementation of the nuclear safety strategy on education and training	Department of Nuclear Safety and Security / Nuclear Safety Action Team	P2	Fixed term extrabudgetary, 2 years	17 avril 2014
Vacancy Notice No. 2014/040	Safeguards Analyst	The Safeguards Analyst is: (1) an Analyst - evaluating safeguards concepts, policies and approaches, and other safeguards related information and documents; (2) a Coordinator of safeguards tasks and project work with other IAEA staff and experts from Member States; (3) a Facilitator - providing timely, accurate and efficient support to operations divisions to resolve safeguards implementation problems, and supporting safeguards inspections, training and other activities of the Department, as requested.	Department of Safeguards / Division of Concepts and Planning / Concepts and Approaches Section	P4	Fixed term, 3 years	20 avril 2014

Référence	Intitulé du poste	Descriptif/Rôle	Département	Grade	Contrat	Date limite de candidature
Vacancy Notice No. 2014/041	Senior Technology Analyst	The Senior Technology Analyst is (1) an <i>expert</i> in isotope separation sciences and related technologies, particularly for uranium enrichment, at R&D and industrial production scale; (2) a <i>key contributor</i> in the preparation and review of State evaluation reports as both senior technical expert and information analyst; (3) an <i>adviser</i> to senior levels for consultations and investigations arising from ad hoc requests generated from headquarters and in-field; (4) a <i>liaison</i> , as appropriate, with representatives of other safeguards divisions, IAEA departments and Member States on issues of his/her expertise; and (5) a <i>technical expert</i> in providing safeguards training with the provision of course material and presentations.	Department of Safeguards / Division of Information Management / State Infrastructure Analysis Section	P5	Fixed term, 3 years	20 avril 2014
Vacancy Notice No. 2014/046	Section Head	The Section Head is: (a) a programme manager in a specialized, multilateral environment, finding practical solutions and presenting arguments that can achieve results; (b) an adviser, providing analysis and background information to the Division Director for the formulation of strategies and policies related to the Section's technical responsibilities and facilitating their implementation; (c) a managerial team leader, planning, managing, coordinating and supervising the activities of the Section in accordance with IAEA policies and programmes and Member States' needs and ensuring that programmes and tasks are implemented effectively; (d) a promoter, conveying to multiple audiences the IAEA's vision and mission in this area; and (e) a substantive technical expert contributor, managing and implementing projects of particular complexity and/or sensitivity.	Department of Nuclear Safety and Security / Division of Nuclear Installation Safety / Safety Assessment Section	P5	Fixed term, 3 years	21 avril 2014
