AGEING MANAGEMENT

FRENCH SIDE-EVENT

SYNERGIES AND COLLABORATIVE EXPERTISE FOR LONG TERM OPERATION

As more and more nuclear installations enter long term-operation, ageing management is becoming a critical competence. Actors of the French nuclear scene will explain how they address this challenge, building an expertise network with relevant infrastructures for developing knowledge and solutions ranging from R&D to end-user implementations. This event is organized by France.

Monday, september 16th, 2019
